Connection through **Collaboration** and **Communication**

Facing Today’s Collaboration Challenges Head-On with Avocor

The Modern Workspace Dilemma:

Connectivity Versus True Collaboration

The professional environment is evolving, with remote and in-house teams needing more than just connections — they require a platform for genuine collaboration. This digital shift calls for a reimagined approach to how teams interact, share, and build upon ideas, regardless of their physical location. Organizations face the challenge of creating spaces that link individuals and cultivate a culture of collective innovation and engagement.

Avocor’s Solutions: Empowering Real Connections and Seamless Collaboration

Avocor rises to meet these challenges with interactive solutions bridging the gap between remote and in-person teams. Our technology is designed to create an intuitive, engaging collaborative experience, transforming your spaces into epicenters of productivity. From interactive displays that encourage dynamic teamwork to software that harmonizes with your existing tools, Avocor enables you to scale your collaborative efforts seamlessly. With Avocor, every display, every touch, and every digital interaction is an opportunity to unite teams and harness the collective genius of your workforce.

Connect. Collaborate. Scale. Discover Avocor’s transformative solutions and redefine the future of your collaborative workspaces.

avocor

A Breakthrough in Collaborative Technology

Avocor’s cutting-edge innovative displays bring a new level of synergy to the modern workspace. Unlike conventional displays that simply showcase content, Avocor’s screens are a canvas for innovation. With a single touch, teams can interact, share, and develop ideas in real-time. The instant response of our technology facilitates a fluid, intuitive experience, mirroring the natural flow of collaborative thought.

Step into a room equipped with Avocor, and in moments you are immersed in a shared creative process, effortlessly bridging the gap between digital and physical collaboration. Avocor is more than a display—it’s a leap forward in collaborative engineering.

Evolve your Workplace with Avocor

Avocor: Tailoring Technology to Transform Workspaces
As we bring our exploration of Avocor's diverse range of collaborative solutions to a close, it's clear that Avocor stands as a leader in enhancing how teams communicate, collaborate, and connect. Our portfolio—from the immersive X Series in large auditoriums to the flexible, scalable CollabTouch systems integrated with industry-leading technology from Logitech and Jabra ensures that any space can be transformed into a hub of productivity and innovation.

The Avocor Edge: A Solution for Every Space
Avocor's commitment to excellence is reflected in the versatility of our products, designed to meet the needs of every workspace configuration. Whether enhancing small huddle spaces or outfitting expansive conference rooms, Avocor delivers superior quality, unmatched ease of use, and state-of-the-art technology that adapts to your specific requirements.

Future-Proof Your Workspace
In an age where the dynamics of work are continually evolving, Avocor remains ahead of the curve, offering solutions that not only meet today's demands but are also geared towards future needs. With features like cloud-based management, interactive displays, and seamless integration with leading UC platforms, Avocor ensures your investment is durable, sustainable, and innovative.

Innovative Display Solutions Powered by Strategic Alliances

At Avocor, we understand that the strength of our displays is amplified through powerful partnerships. With a commitment to excellence, we collaborate with leading UC partners to create a seamless and integrated meeting experience.

Partnerships: The Foundation of Avocor's Ecosystem

Our collaborative solutions are built upon the foundation of strategic alliances with industry leaders in both software and hardware. These partnerships ensure that Avocor displays not only meet but exceed the standards of enterprise communication.

Tailored Synergy: Aligning with Leaders in Technology

Avocor's alliance with renowned names like Google, Microsoft, and Zoom for software integration and Logitech, Jabra, HP/Poly and Neat for hardware synergy ensures a streamlined and efficient collaboration space. By working closely with audiovisual and workplace innovation experts, we deliver a cohesive and dynamic user experience.

Excellence in Integration: Crafting Seamless Interactions

Our commitment goes beyond the physical display. It's about crafting an ecosystem where technology fades into the background, and natural collaboration comes to the front This is enabled by our meticulously chosen partners, including Barco, Miro, Lucid and Figma and many more, whose excellence complements our own.

Driving Technical Compatibility

We focus on enhancing your procurement processes and technical ecosystem with seamless compatibility.
Our products and solutions are engineered to integrate with the platforms and tools your business already trusts, bridging the gap between innovation and familiarity.

Unified Vision for Collaboration

Join Avocor in embracing a unified approach to communication that reflects the diversity and dynamism of the modern workspace. Our partnerships are not just connections; they're a testament to our dedication to quality, compatibility, and the pioneering spirit of collaborative work.

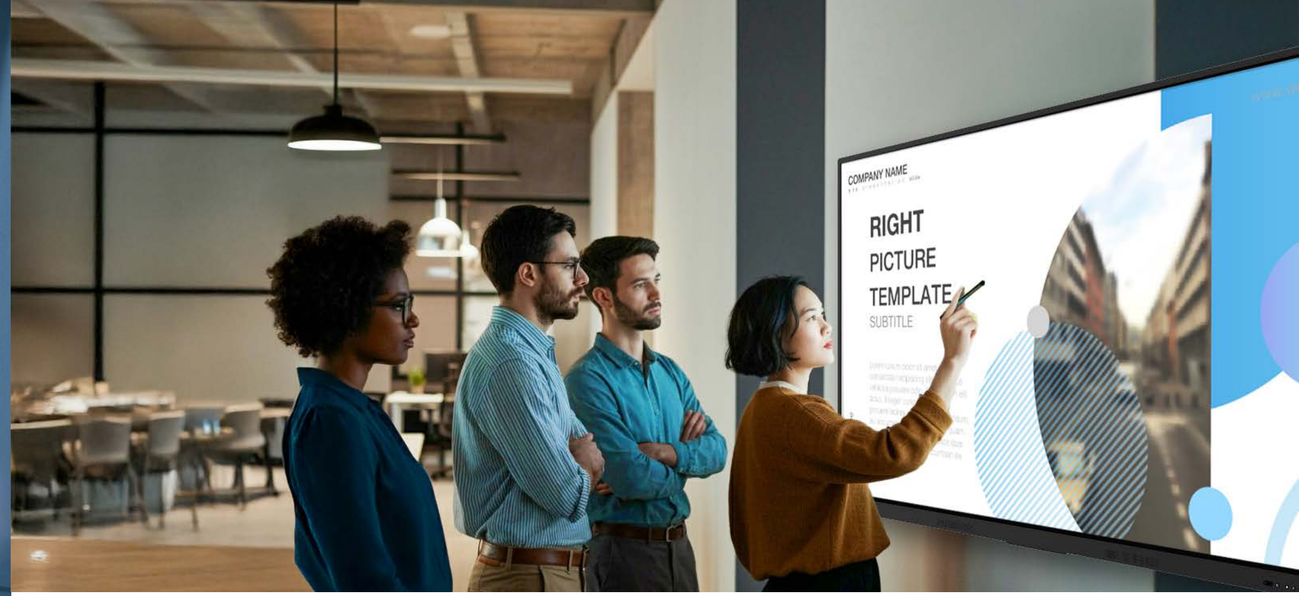

Explore the potential of **Avocor's partnership-powered solutions** for your collaborative space.

Unveiling the Touch of Brilliance with Avocor's Interactive Displays

avocor

E Series: Affordable Excellence. Unmatched Collaboration.

The Avocor E Series sets a new standard in interactive collaboration displays. Ideal for education, corporate, and government environments, the E Series incorporates stunning 4K resolution, intuitive screen sharing functions, and user-friendly connectivity with advanced IR touch control. The E Series is built to support next-generation hybrid workflows and comes pre-loaded with leading screen sharing and digital signage apps. Designed to scale, the E Series combines professional display technology and easy cloudbased management to transform how teams connect, create, and communicate - all without compromising your budget.

avocor

H Series: Superior Performance for Hybrid Collaboration

The H Series represents the peak of interactive display solutions tailored for the hybrid workspace. Accommodating up to 40 touchpoints with rapid response PCAP technology, it facilitates a level of engagement that rivals in-person interaction. The ultra-thin bezel and high contrast ratio provide an immersive experience, while the comprehensive connectivity suite and powerful audio capabilities make the H Series the go-to for premium collaborative environments. This series is a testament to Avocor's dedication to creating spaces where teams can not only meet but truly connect and create.

E92 Series: The Widescreen Wonder of Workspaces

The E92 is not just a display; it's a vast expanse where collaboration has no limit. The 92-inch widescreen format is engineered to accommodate more content, more data, and more interaction simultaneously. With this ultra-wide aspect, teams can work side by side on complex projects without the need to switch views or compromise on detail. Encased in a sleek, modern design, the E92 Series complements any collaborative environment. Its anti-glare surface maintains visibility from all angles, inviting collaborators to step up and share their insights without the barriers imposed by smaller screens.

avocor

L Series: Redefining Interactive Engagement

The L Series, available in a striking 105" display with a 21:9 aspect ratio, introduces a new dimension to visual storytelling. With 5K resolution, the L Series presents information with crystal-clear detail. The interactive version boasts up to 40 touchpoints, inviting collaboration through intuitive PCAP technology. It's sleek brushed aluminum construction, and ultra-thin bezel demonstrate that luxury design and high functionality can coexist. Integrated smart features, including an occupancy sensor and the Avocor UiQ interface, ensure that the L Series is as intelligent as it is beautiful.

avocor

Avocor CollabTouch: The Fusion of Flexibility, Scalability and Modularity

Transform your meeting spaces into hubs of collaboration with Avocor CollabTouch.
This range is crafted in synergy with leading names in video collaboration - Logitech and Jabra - ensuring your unified communications platform integrates smoothly for an enhanced interactive user experience.

The Power of Choice: Versatile Size Options
CollabTouch offers diverse sizes suitable for any space—from intimate huddle rooms to expansive conference areas. Each display is designed to overcome the challenges of remote participation, guaranteeing that every attendee, no matter their location, enjoys high-definition video and crystal-clear audio.

Customizable to Your Space and Needs
CollabTouch's modular design means it grows with your company. Its flexibility allows for easy upgrades and repurposing of components, adapting to your evolving business needs and the shifting demands of a hybrid workforce.

Streamlined for Performance and Maintenance
Installation and maintenance are streamlined with CollabTouch. It utilizes a single-power cable system for quick setup and its cloud-based remote management capabilities ensure that AV/IT and Facilities teams, FM, and AV teams can oversee and troubleshoot effectively, minimizing downtime.

Enhanced Interaction with In-Call Whiteboarding
Elevate your team's collaborative efforts with in-call whiteboarding and on-screen annotation, driving productivity and enhancing meeting outcomes.

Your Favorite Displays, Now More Interactive
CollabTouch enriches Avocor's popular interactive display lines—E, G, H and L Series—by adding powerful collaboration tools that amplify the efficiency and interactivity of your meetings.

Each CollabTouch setup with **Logitech** or **Jabra** is a commitment to better meetings— a space where ideas are shared effortlessly, and teams can collaborate without boundaries.

Avocor Displays | Designed for Education

avocor

Avocor S Series:
Simple, Secure, Spectacular

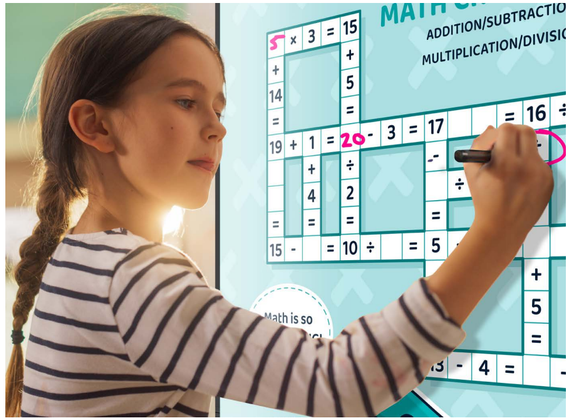

The Avocor S Series has been specifically designed for educational environments, supporting effective teaching and learning. Built on an Android platform, the Avocor S Series enables educators to use their favorite applications straight from the display and within the built-in whiteboard platform.

The S Series comes preloaded with a software suite that enables educators to make lessons engaging and interactive, including Class, Note, Share, Browse and DMS.

Offering seamless integration with Google*, the S Series enables educators to access and utilize Google Drive, Classroom and Meet directly from their classroom display, making lessons more efficient and engaging. With the Google Play Store built-in, teachers can expand their teaching resources with a wide range of educational apps.

Featuring a 4K UHD display, the S Series, combines captivating visuals with advanced touch technology to deliver a smooth annotation experience for teachers and students, while versatile mounting options accommodate various classroom layouts.

5 YEARS WARRANTY**

*Available when adding additional Google EDLA certified OPS Slot-in PC
**5 Year Warranty only available when product is sold into an Educational Establishment

avocor

Avocor A Series: Interactive, Connected, Engaging*

The Avocor A Series has been meticulously designed to redefine the digital classroom experience, supporting both in-person and remote learning environments. Built on the latest Android platform, the A Series empowers educators with flexibility and advanced tools to create interactive, engaging lessons.

With seamless access to the Google Play Store, teachers can download their favorite educational apps directly to the display, tailoring their classrooms to their unique teaching needs. From lesson planning to real-time collaboration, the A Series provides a premium experience compared to the S Series, offering unmatched versatility.

Remote Learning Redefined
The A Series features a detachable 4K camera with a 123° field of view and a 10-microphone array, ensuring crystal-clear communication for distributed students. This powerful combination bridges the gap between classroom and remote learners, fostering inclusivity and collaboration.

Unparalleled Visuals and Touch Precision
Available in 65", 75", and 86" sizes, the A Series delivers stunning 4K UHD visuals, zero air gap technology, and advanced anti-glare glass. Supporting up to 40 simultaneous touch points, it provides a seamless and intuitive touch experience, ideal for interactive lessons.

Sustainable and Smart Design
Smart presence sensors activate the display when users approach and power down when idle, optimizing energy use for a more sustainable classroom. Elevate your educational environment with the Avocor A Series—the ultimate choice for modern digital classrooms.

Premium, Commercial Displays for a Modern Visual Experience

avocor

K Series: The Canvas of Corporate Brilliance

With the K Series, every presentation becomes an experience. Sizes ranging from 55" to a grand 98" are coupled with 4K QLED to bring visuals to life, bringing visuals to life with unmatched brightness and color accuracy. Multiple connectivity options ensure that any device can contribute to the narrative, while advanced features like Montage wireless screen sharing and Rise Vision digital signage redefine engagement. Designed to operate 16 hours a day, 7 days a week, the K Series is built for any space within your modern business landscape.

avocor

B Series: Powerful and Flexible Digital Signage

Introducing the Avocor B Series, a stunning range of professional displays built for performance, reliability, and ease of deployment. Available from 43" to 86", the B Series offers flexible connectivity and a robust Android OS for smooth playback of demanding content.

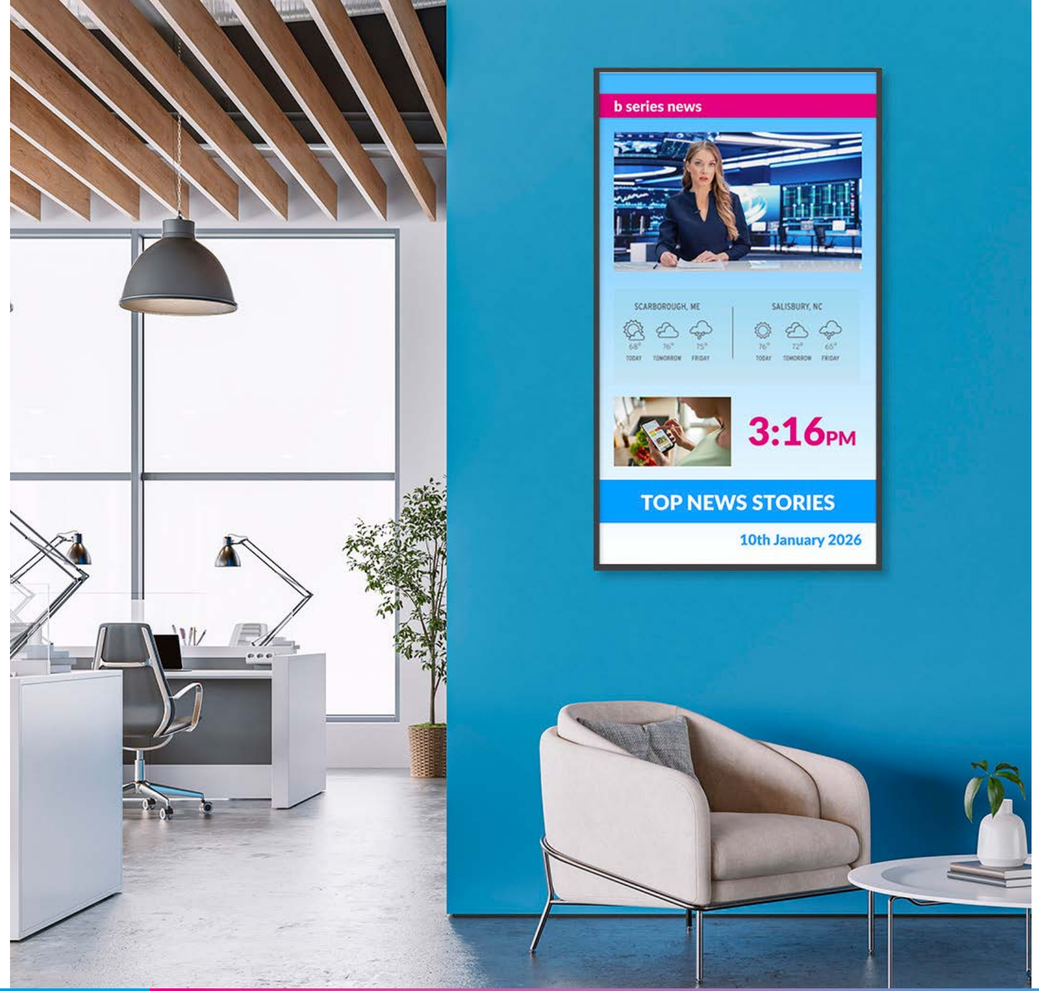

With multiple integration options for leading CMS platforms, B Series delivers a truly CMS-agnostic solution, powering everything from corporate messaging to retail promotions. It turns any space into a dynamic digital experience that informs, engages, and inspires.

The B Series isn't just another display. It's your canvas, built to adapt to whatever you throw at it. Mount them portrait or landscape, run them non-stop, 24 hours a day, they're ready for anything. And with seven different ways to load your content, the B Series is as versatile as you need it to be.

avocor

Stunning visual clarity
4K UHD resolution, 700-nit brightness for high ambient light, and ≥90% DCI-P3 colour for vivid, lifelike imagery.

Effortless installation
Slim, symmetrical bezels with lightweight, ADA-compliant mounting and clean cable management.

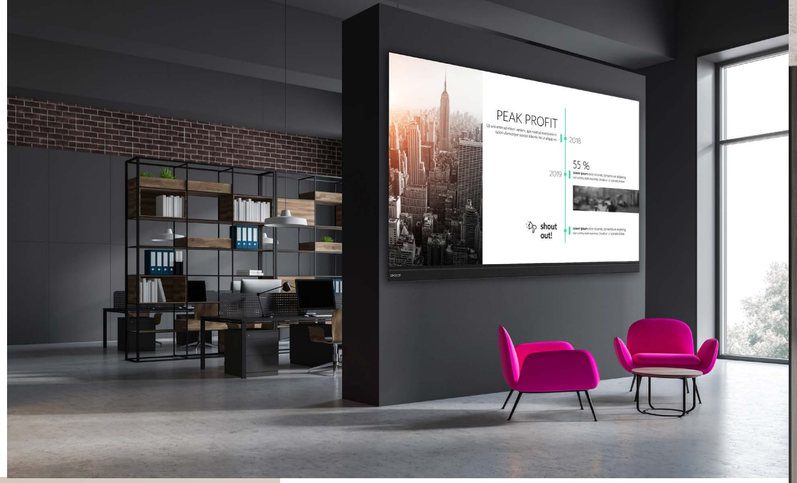

Engineered for reliability
24/7 operation, portrait or landscape mounting, and a fanless, ultra-quiet thermal design.

Flexible content control
Seven ways to load and manage content, from external media players to your preferred CMS.

avocor

X Series: Where Every Detail Tells a Story

The Avocor X Series is engineered for moments when you need to make a big impact. With its impressive large-scale displays, the X Series transforms any presentation into a powerful communication tool that captures and holds attention in the most expansive of venues.

avocor

The **Avocor X Series** is a cornerstone for impactful presentations. It's built for decision-makers who value clear communication and want technology that supports this at every level.

Presenting with Clarity and Scale
Offering expansive 132" and 138" screens, the X Series brings a new level of visual clarity to your content. It's designed to deliver your message effectively, ensuring that every slide, graph, and video is presented with the detail and precision that your information deserves.

Precision Meets Practicality
With its high-definition display and fine pixel pitch, the X Series provides a crisp, clear image that makes viewing from any angle a pleasure. It's about making sure that what you present is not just seen, but also remembered.

Integrated Audio for Complete Communication
Sound is as important as sight in the X Series. The integrated speakers ensure that your presentations are not only seen but also heard, without the need for additional audio equipment.

Designed for the Modern Space
The sleek design of the X Series complements any room's aesthetic, with a modular setup that's as simple as it is sophisticated. It's about merging form with function, creating a display that looks as good as it performs.

Energy-Smart Technology
Mindful of energy use, the X Series is built to perform without excess consumption. It's an investment in technology that respects both your budget and the planet.

avocor

X Series COB:
All-in-One dvLED Simplicity

The Avocor X Series COB represents the next evolution of large-format visual communication. Powered by advanced Chip-on-Board technology, it combines exceptional image quality, enhanced durability and seamless design to create a premium dvLED experience for modern professional environments.

Designed for organizations that demand more from their display technology. Whether in executive boardrooms, innovation centers or customer-facing spaces, it delivers the clarity, consistency and confidence needed to communicate effectively when the stakes are highest.

Visual Performance Without Compromise
Available in 135” Full HD and 162” 2K or 4K configurations, the X Series COB delivers remarkable clarity at every scale. From executive presentations and strategic discussions to high-impact visual content, every element is displayed with outstanding precision and visual depth.

Advanced Technology, Refined Performance
Built on Chip-on-Board LED technology, the X Series COB is designed for durability and reliability in professional environments. The protective LED surface helps guard against impact, dust and accidental contact, while delivering consistent performance over time. It’s technology that provides confidence in both day-to-day use and long-term ownership.

Cleaner Architectural Design
With its refined appearance, seamless display surface and ultra-slim profile, the X Series COB complements the most sophisticated environments. Integrated audio and a streamlined all-in-one design eliminate the need for external components or speaker bars, creating a sleek, professional aesthetic. It brings together advanced technology and thoughtful design to create a display that enhances the room as much as the content on screen.

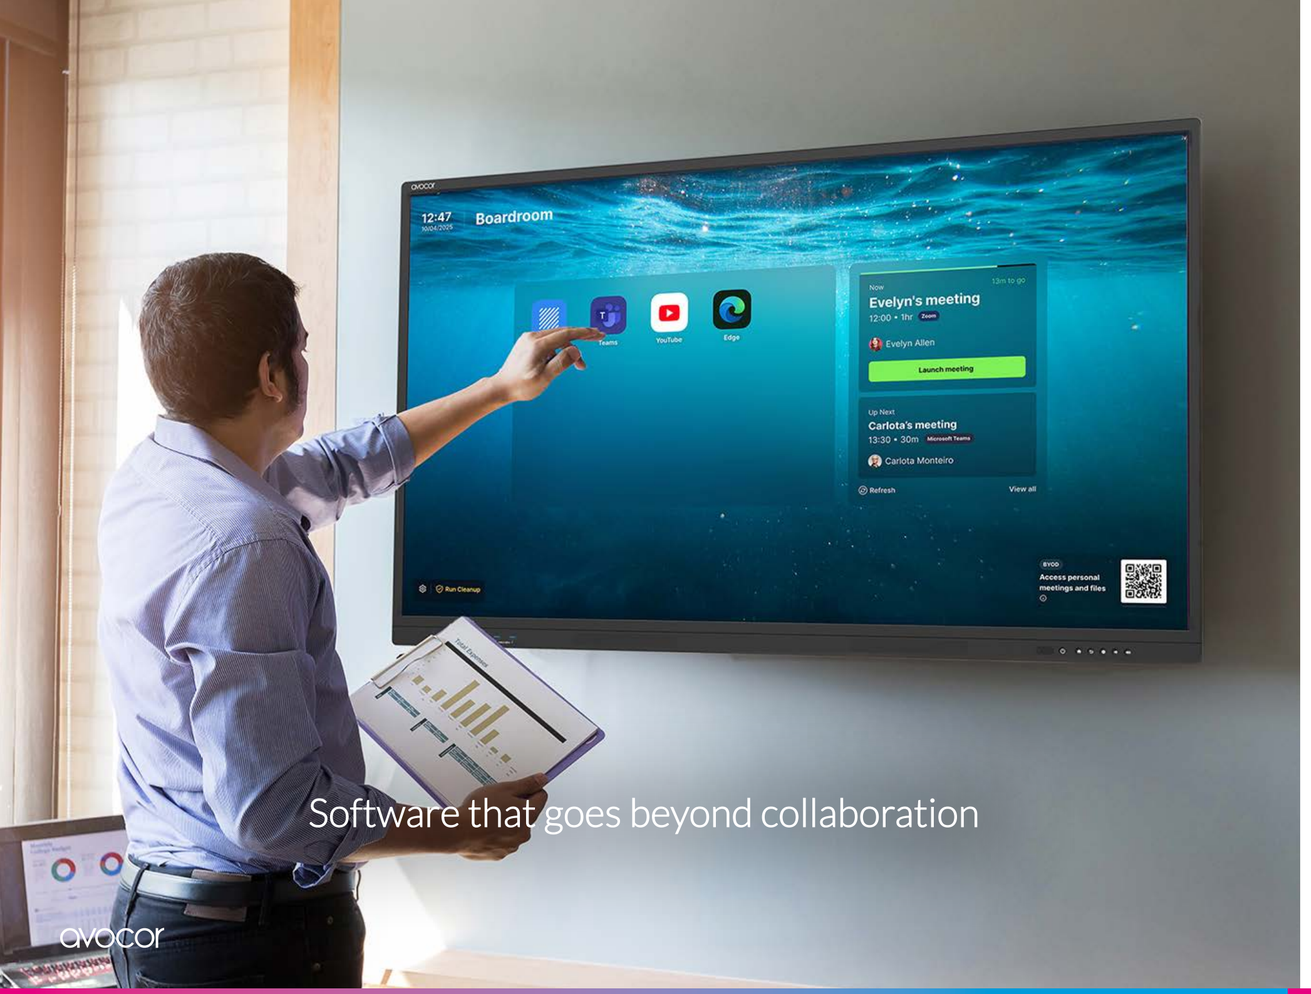

Confidence for the Future
The X Series COB is designed for organizations investing in long-term performance. With built-in Android compute and seamless compatibility with leading collaboration platforms, conferencing solutions and hardware ecosystems, the X Series COB integrates effortlessly into existing workflows, helping teams connect, communicate and collaborate without compromise.

Software that goes beyond collaboration

avocor

Every Avocor display is engineered as a single, integrated solution, pre-loaded with a sophisticated software suite designed to remove friction from the workday. From the moment of installation, Avocor provides the tools to communicate, collaborate, and manage your global fleet all from a single interface.

Avocor Proprietary Software:

Intuitive User Experience with Avocor UiQ

Avocor UiQ is our proprietary, tile-based interface designed to make the most advanced technology feel natural. By providing a consistent look and feel across all meeting spaces, Avocor UiQ increases users' confidence when using the technology and streamlines the start of every session.

- Optimized user experience through a user-friendly interface.
- Seamless integration with all leading UC platforms.
- Customizable interface to personalize your display, just how you like it.
- Straightforward integration with existing systems.

UiQ

Remote Management with FUSE

FUSE allows IT and Facilities teams to organize device estates into logical groups that mirror your organization (by global location, building, or specific meeting room). This centralized cloud-based dashboard reduces the need for on-site support and maximizes the ROI of your hardware investment.

- Remotely manage and configure Avocor solutions at scale, improving efficiency.
- Automated ticketing streamlines warranty management when devices fail or alert.
- Extend investment life with digital service activation, firmware, and software upgrades.

FUSE

avocor

Avocor Software Partners:

At Avocor, we blend cutting-edge hardware with intuitive software to create an unmatched user experience. Our integrated solutions, tailor-made for corporate, educational, and management needs, offer a more connected, intuitive, and impactful way of working.

We partner with leading collaboration brands to ensure that Avocor solutions work seamlessly within your existing ecosystem to enhance collaboration, simplify deployment and deliver a better user experience.

DisplayNote Montage

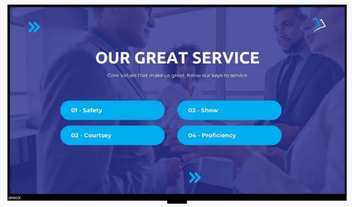

Instant Wireless Collaboration with DisplayNote Montage

DisplayNote Montage eliminates the friction of cables and adapters. It empowers hybrid teams to share content instantly, ensuring that the focus stays on the agenda, not the technology and gives every team member the opportunity to participate actively.

- Securely share content across your organization, from any location or device.
- Share content instantly via the dedicated application, regardless of device.
- Seamlessly distribute information across your entire corporate network infrastructure.

RISE VISION

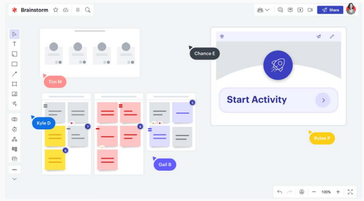

Dynamic Workplace Communication with RiseVision

Maximize the value of your real estate. When your displays aren't in a meeting, they become a powerful internal communication network. RiseVision allows you to broadcast critical company data and branded content across your office or campus.

- Instant, global announcements for town halls, KPIs, and critical alerts.
- Save time by automatically pulling data from Google, Microsoft, and social feeds.
- Customize professional templates quickly to match your corporate identity.

Lucidspark

Enterprise-grade Virtual Whiteboard Software

Lucidspark is a cloud-based virtual whiteboard application designed for real-time team collaboration, brainstorming, and project planning.
As part of the Lucid Visual Collaboration Suite, it provides an infinite canvas for creating digital sticky notes, mind maps, and flowcharts to organize ideas and turn them into actionable plans.

- Real-time co-creation for distributed and hybrid teams.
- Structured visual thinking transforms ideas into action plans.
- Infinite digital canvas organizes complex projects and data.
