The benefits of HP collaboration PCs with Avocor interactive displays

Shared digital whiteboarding
Interactive displays help remote team members easily contribute and view in-meeting annotations for an experience as close to being as the room as you can get.

Full-team engagement
Each member has more ways to communicate, share ideas, and contribute during meetings.

Technology for the future
High-end, commercial-grade solutions can last the entire life of the room.

Enhanced user experience
Our products are extensively tested to work seamlessly together, so less time is spent on facilitating and starting meetings, and more time is spent collaborating.

Flexibility for any space
With multiple size options, any room can be transformed into the ultimate conferencing room.

Simplified ordering and support
HP is your single point of contact for ordering and support for your meeting spaces.
Why HP + Avocor?
Avocor and HP work together to provide frictionless, deployable collaboration solutions for enterprise businesses. Together, we have created solutions that address two of the most common UC platforms—Microsoft Teams Rooms and Zoom Rooms for Touch—by pairing Avocor interactive displays with HP Slice and HP Collaboration PCs that enable digital whiteboard sharing.

From conference rooms and executive offices to focus, huddle, and casual spaces, the power of Avocor displays with HP collaboration devices helps enable teams to seamlessly run meetings, connected in the most effective way to remote participants. These solutions have been validated to be easily deployed, in quantity, across your operations.
