*The Total Economic Impact™ Of Microsoft Teams Devices, a commissioned study conducted by Forrester Consulting, January 2021 Forrester

Microsoft Teams Rooms delivers an exceptional collaboration experience in a meeting space.

With a lower total cost of ownership (TCO), native Microsoft Teams Rooms reduce the barriers between spaces, places, and people so everyone has a seat at the same virtual table, wherever they are located.

Easy to use
Deliver consistent Teams experiences designed to make collaboration easy and hassle-free

Inclusive
Foster inclusive and interactive meetings for everyone, regardless of where they are

Flexible
Turn any shared space into a Teams room with a wide selection of devices to fit every need

Secure and Managed
Keep devices secure, reliable, and up to date with rich management capabilities

Microsoft 365

Microsoft Teams Rooms features and benefits

1 | **Easy to use**
- Adapt easily with native Teams controls that are predictable and simple
- Join in seconds with less devices: one touch join, touch-free with proximity join and voice controls

2 | **Inclusive**
- High quality audio and video so everyone feels heard
- Return to work safely: touchless experiences and occupancy controls
- Attributed transcription via intelligent speakers

3 | **Flexible**
- Solutions for any budget and any workspace
- Connect to 3rd party meeting platforms like Zoom and Cisco Webex through Direct Guest Join

4 | **Secure and Managed**
- Purpose built for shared meeting experiences with privacy in mind
- Enhanced manageability reduces support costs for on-site visits to debug, diagnose, and update peripherals
- Scale and optimize your spaces with greater telemetry and rich reporting

Microsoft Teams powers hybrid work, providing a platform for inclusive and collaborative connections backed by the security of the Microsoft cloud. Premium audio and video capabilities from certified 1st and 3rd party hardware with a native, purpose-built app built specifically for Teams optimizes the meeting experience.
