

AVOCOR X SERIES DATASHEET

132" | 138"

OVERVIEW

The Avocor X Series, a direct view LED display solution, is designed to captivate and impress in corporate and retail environments. It's the centerpiece that delivers the 'wow' factor to audiences, leveraging its modular design to fit into diverse spaces, no matter the size constraints.

The Avocor X Series is designed to be the focal point in corporate or education spaces, impressing audiences with its visually captivating modular design. It embodies Avocor's dedication to innovative and adaptable technology, easily fitting into various settings. It has a sleek modern design, using a tiled wall approach for easy installation. With consistently bright and clear images, the X Series is a transformative product for any space.

The sleek 16:9 138" and 132" ultra wide display simplifies installation challenges with its tiled wall approach, delivering consistently bright and vivid imagery. It's an innovative, visually stunning solution for environments aiming to make a lasting impression. The X Series isn't just a screen; it's a game-changer in how businesses engage with their audience.

SOLUTION Highlights

Effortless Installation.

Tiled video wall design simplifies transport and setup, even in tight spaces.

Seamless Assembly.

Quick-connect tiles enable swift formation of expansive, uniform displays.

Superior Visual Experience.

Outperforms projectors with vibrant, lasting image quality in a sleek form.

Powerful Onboard Processor. Enables seamless collaboration

and presentation with built-in

processing power.
